NUMB. 3233

THURSDAY, JULY 12, 1744.

Rome, June 27.

HE two Armies are still in the same Condition, and if we may give Credit to Circumstances, are like to continue so; Prince Lobkowitz having caused four large Pieces of Cannon, with 30 Waggon Load of Bullets and Powder, to be conveyed Yesterday to his Camp. This Morning 400 Foot pass'd under the Walls of this City, in order to join him. We are absolutely at a Loss to guess where two Battalions of Infantry to be employed; that, nevertheless, are actually going down the Tiber, having embark'd at Otricoli. Some People fancy we shall hear of their passing by Tivoli, in order to throw themselves into the Abruzzo; others are no less positive, that they will be conveyed quite to the Mouth of the River, in order to embark on board the English Men of War that have been seen in the Height of Civita Vecchia and Nettuno.

June 30. The King set out a Week ago, to the Fortifications of Coni, and some other Places. His Majesty returns to Day, and in two or three Weeks he will go to examine the Works that are thrown up in the Defiles of Chateau Dauphine, in order to defend them. We shall withdraw, speedily, some more Battalions from the strong Places in Lombardy, as well as the Troops on the Frontiers of the State of Genoa, in order to send them to those Places that are more immediately in Danger. The first Column of the Enemy's Army is expected on the 10th of next Month at Briancon, the second on the 12th, and the last on the 15th.

The Passage into Italy, is no longer thought of for this Year; the Enemies themselves profess, at present, that they bound their Operations to the taking of two or three Places, in order to secure themselves Winter Quarters in Piedmont. As to our Court, they pretend not to make Conquests, but think they have fulfilled all that can be expected from them, in defeating the Enemy's designs of that Sort; and retaking, if any Opportunity should offer, the Cities of Nice and Villa Franca.

June 30. Since the Retreat of the combined Army, Admiral Matthews is returned again to Vado, in order to take in Water and fresh Provisions; after which, he will rejoin the Squadron, which is, at present, in the Gulf of Lyons.

A. An English Man of War of 70 Guns, is just come into this Port, with two French Prizes, one bound for Algiers, with Presents for the Day, of considerable Value; and the other from Smyrna, very richly laden.

July 1. The English Fleet, under the Command of Admiral Matthews, is so unfortunately posted, on the Coast of Genoa to the Entrance of the Port of Toulon, that there is not a Ship can pass, without being stopp'd and visited. Most of the Vessels belonging to the Merchants of this City, have now Intelligence of the War being broke out, and that the English are absolutely Masters of the Mediterranean; for which Reason, they have wisely taken Shelter in some of the Neutral Ports in Italy; but the Day of their Arrival, alters their Affairs, renders Payments impracticable, and lays them under inexpressible Difficulties; but what of all that, this is the last Evil of the two, and we had better wait, till it should be a long time, for the Arrival of our Ships, than have them fall into Mr. Matthews's Hands, and so as a Certainty that they will never arrive at all the Count de Maurepas has a List of 69 Vessels belonging to this Port, that have been taken by the English, whereof our Merchants lose three Millions and a half.

July 9. This Day, about Noon, arrived Canner with four Postillions sounding before him, who brought Advice, that the Imperial Army had attacked and repossessed the Lines of Lauterbourg; in which Action, the Austrians lost several thousand Men:

SCOTLAND.

July 3. We hear from Aberdeen, that on Tuesday Night last some People attempting to run prohibited Goods, three or four of them were killed by the Customhouse Officers.

COUNTRY NEWS.

July 9. Yesterday sailed hence, at Four o'Clock in the Afternoon, the Somerset Snow Privateer, Captain Northover; 120 Tons, 12 Guns, six Pounders, and 36 Men, with very little Wind at S. W. and about Seven in the Evening, about two Leagues to the Eastward of the Holmes, in tacking about, she over-set, and went to the Bottom. Ten of the Crew, and the Pilot, saved

themselves by the Buoy and a Topmast; the Captain, Officers, and all the rest of the Crew, were drown'd; which has caused many strong Hearts this Day. She was built here but a Month since; and its believed the Misfortune was occasion'd by the want of a sufficient Ballast.

HOME PORTS.

Deal, July 10. Wind S. W. Came down the Betty, —————, for Newfoundland; the Antelope, Mercer, for Lisbon; the Francis and Jane, Morris, for Portsmouth. Arrived the John and Elizabeth, Paul, and the Charming Polly, Smith, both from Hamburg for Topsham; the Carolina, Pennell, from diuto for Lisbon; and remains with the Winchester Man of War.

London.

There are several private Letters from Ghent, dated the 15th Instant, in the Afternoon, which say, that they had that Moment Advice, that Prince Charles of Lorraine had defeated the French, kill'd 8000 Men on the Spot, and taken between Eighty and One hundred Pieces of Cannon.

The States General have ordered the Baron de Rechten, late Governor of Menin, to draw up an exact Account of that Siege in Writing, and to produce the three principal Inquiries, by whose Advice he gave up the Place; directing him, at the same Time, to remain at the Hague till he receives further Instructions from their High Mightinesses.

Several English Merchants at Leghorn, are fitting out Privateers to cruise against the French; and as they have perfect Intelligence of all their Homeward-bound Ships, it is believed their Design will meet with Success.

The States General, to avoid all Disputes about the Command of their Second Body of Auxiliaries, have consented that they shall act under the Orders of the Duke of Aremberg.

The French keep constantly two large Men of War at the Harbour of Brest, to hinder any Vessels from looking in, to discover the Strength of the Squadron equipping there-with the utmost Diligence.

The Sultanah, Capt. Davis, a Calais Privateer, hath taken the following Ships; viz. The Unity Dickie, from Bergen, with Fish, rancho'd for 170l.

Capt. Johnson, from New York, for Amsterdam; whose Ship and Cargo are valued at 12,000 l.

Capt. Kd, of Cromarty, who gave his Mate for Ransom, one from Liverpool, one from Whitehaven, and one from Ireland. The Privateer mounts 10 Carriages, and 10 Swivel Guns, and has upwards of 100 Hands; the Men said there were two more Privateers in the North Sea, one of 10 Carriage Guns, and 100 Men; and the other a Masted Sloop, upon the Coast of Norway.

Yesterday his Grace the Duke of Devonshire, Lord Lieutenant of Ireland, with his Dukes, set out for his Grace's Seat at Chatsworth in Derbyshire, for the Remainder of the Summer.

There has been Five Messengers arrived here since last Sunday Night.

To-morrow his Royal Highness the Duke of Cumberland will review General Hamilton's Regiment on Putney Heath.

Yesterday a large Privateer, fitted out by some French Merchants, sailed out of the River, on a Cruize against the French. She carries 18 Guns, and 24 Swivels, and is well Mann'd.

The same Day died, aged 92, at his House in Barton-street, Westminster, William Pierer, Esq; a Gentleman possessor'd of a very plentiful Estate in the County of Surrey.

ROYAL CHYMICAL WASH-BALL.

FOR beautifying the Face, Neck and
Hands; hath induced many Envious Persons, not only
in every Part of London, but in many Places in the Country,
to sell a Counterfeite White Ball (which may prove prejudi-
cial as well as ineffectual) in Imitation of the true ones.

To prevent as much as possible any Mistakes in Preparing
our Customers, we give this special Notice. That the true
Sort are now sold only at Mrs. Wharton's Toyshop, the New
Court, Bow, near the Royal-Exchange in Cornhill; and at
Mrs. Stephens (was Dunn) a Milliner, now removed to the
Blue Ball near the Middle-Temple Gate in Fleet-street. The
true Ball, or 15 to the Dozen; but no Allowance for less
than 12 Balls at a Time, nor will they ever be sold any
else, except Notice be first given in their Advertisement.

Their true and real Virtues have been sufficiently stated in
all the Years that they have been sold by Publication; and
more so, as they are still more than ever used and admired
by both Sexes of the best Quality, and many Thousands of
and others, for making the Skin so delicately soft and smooth,
as not to be paralleled by any Wash or Wash-ball, &c. of
Kind or Form; for these Balls are indeed real Beauty to the
Skin, by taking off all Deformities, as Tettes, Ring-
Morphew, Sunburn, Scurf, Pimples, Pies, or Redness of the
Small-Pox, and keeping it of a lasting and extremly White
color; soon after red or rough Hands; are admirable in the
Head, not only giving a most exquisite Sharpness to the
Razor, but so to comfort the Brain and Nerves, as to prevent
catching Cold. They are of a graceful and pleasant form,
without the least Grain of Mercury, and may be used
without any danger to their Safety.
